

Public Health Unit Campodunn.

10.18 am.

Andrew → 17.06.19. (02) 95159420.

5 others. Will need some followup.

- baceteric.
- 20% already have it. (back of nose/throat).
- 
- 
- 

Friday afternoon - he said he wasn't feeling well  
on Sat he was sent to hospital. - He is stable. He is still in  
a comma - off for 1 month.

it takes  
1-7 days.

he was not unwell @ work.  
so its low risk of passing it on.  
→ on when symptomatic.

- Incubation period
- if you are unwell, Antibiotics won't help.
- sharing drinks and walking past is not a significant risk
- over 20 hours with him - that is why it's high risk.

Smithfield,

Sales Manager  
Steve Cradden.  
0452-262-077.
