Hi David,

Please find attached a copy of an R/O I was given by the service department and was requested to pass on to HR. The person who provided this information didn't want to be identified thus asking me to send it on. I send this not for you to react on but as the employee no doubt has a copy and has asked me to forward it on it

becomes my duty to make the company aware in case it is brought to light at a later date.

Regards
